- The **General Criteria** responses on the sheet below.

Hours of Operation: _____

Days of Operation: _____

Number of Employees: _____

General Criteria: Please complete the following (if needed on a separate sheet of paper) and demonstrate how the application satisfies each provision. Please refer to **Section 18.05** of the Zoning Ordinance for complete text.

1. Explain how the proposed use is compatible with and in accordance with the general principles and objectives of the City's Master Plan.

2. Explain how the use has been designed, constructed, operated, maintained to meet the stated intent of the zoning district and how the use shall be in harmony with the general purpose and intent of the Zoning Ordinance.

3. Explain how the proposed use has a location, size and character that will be in harmony with the appropriate and orderly development of the surrounding neighborhood and/or vicinity. Describe how the use complies with all applicable regulations of the Zoning Ordinance. Explain how the location, size and height of buildings or structures, walls, fences, landscaping and height of signs for the proposed use will not interfere with or discourage the appropriate development and use of adjacent land and buildings or unreasonably affect their value.

4. Explain how the proposed use has been designed to make vehicular and pedestrian traffic no more hazardous than is normal for the district. Description should take into consideration vehicular turning movements in relation to routes of traffic flow, proximity and relationship to intersections, adequacy of sight distances, location and access of off-street parking and provisions for pedestrian traffic, with particular attention to minimizing child-vehicle conflicts.

5. Explain how the location, size, intensity, site layout and periods of operation of the proposed use shall be designed and arranged to minimize any possible nuisance which might be noxious to the occupants of any other nearby permitted use, whether by reason of dust, noise, fumes, vibration, smoke or lights.

6. Explain how the use will not have an adverse effect on the quality of the natural environment in comparison to other permitted uses in the district. If the anticipated impact creates or contributes to a significant environmental problem, mitigation shall be provided to alleviate the impacts associated with the requested use to ensure the end result is at least similar to the pre-existing conditions. May illustrate impact by overlaying the development plan on a natural features map.

7. Describe how the proposed use has been located where it can be adequately served by essential public facilities and services, such as streets, pedestrian or bicycle facilities, police and fire protection, drainage systems, water and sewage facilities, and schools.
