

Attention Residents and Business Owners

In an effort to conserve water during **hot weather peak** demands, and to reduce the potential of exceeding the City of Romulus' peak contractual obligations with the Great Lakes Water Authority (GLWA), we are requesting the following water restrictions:

- Please restrict outdoor water use during ozone action alerts and high- temperature conditions based on an odd- and even- number address system. In these hot weather conditions, homes and businesses with odd-number addresses should restrict outdoor water use to odd-number days; even-number addresses should restrict water use to even-number days.
- Non-essential water use should be limited to the hours of 9:00 PM and 5:00 AM. Sprinkler timers can be set to allow for watering schedules after 9:00 PM. Tasks such as lawn watering, pressure washing houses, decks, driveways etc, pool filling, and car washing should occur after 9:00 PM, if possible.

Participants will be helping the City of Romulus stay under the GLWA contractual peak exceedances, and keep costs lower for all users in the system. Your help in this request is greatly appreciated.

If you have any questions regarding this matter, please call (734) 942-7579.

Sincerely,

City of Romulus Water Department
